LOGGING CAMP.

near Ely, Minn.

Minnesota was at one time one of the principle lumber producing states, and the North woods were dotted with logging camps.

This camp is one of the few remaining, that were built entirely of logs. The date of its construction is unknown. The few modern camps are usually built of lumber. Parts of the camp have been burned and rebuilt.

Owned since 1924 by the North Star Lumber Co.

Wm. G. Don?
District Officer.
